Top 5 ICBs by % Treated Within 62 Days (July 2024)

Integrated Care Board	% Treated w/n 62 Days (July 2024)
NHS Surrey Heartlands Integrated Care Board	82.76%
NHS Cornwall and the Isles of Scilly Integrated Care Board	80.43%
NHS South West London Integrated Care Board	78.55%
NHS Suffolk and North East Essex Integrated Care Board	76.00%
NHS Cheshire and Merseyside Integrated Care Board	75.96%

This dashboard compares NHS cancer waiting times for July 2021–2024, focusing on the percentage of patients treated within the 62-day target across Integrated Care Boards (ICBs). The introduction of ICBs in July 2022 marked a significant reorganisation of the NHS from Clinical Commissioning Groups (CCG's). This project explores how cancer wait time performance has evolved before and after this change. July was selected as it was one of the only months with data available across all years, allowing for controlled year-to-year comparison. While no ICB met the 85% national target in July 2024, some showed notable improvement.

This dashboard is a skills demonstration — full monthly analysis will follow in the next project.
